Ransomware: What is is and what to do about it

Interagency technical guidance document aimed to inform Chief Information Officers and Chief Information Security Officers at critical infrastructure entities, including small, medium, and large organizations. The document provides an aggregate of existing Federal government and private industry best practices and mitigation strategies focused on the prevention and response to ransomware incidents.

Cyber Career Pathways Tool

The Cyber Career Pathways Tool will help individuals identify, build, and navigate a potential career path in cyber by increasing one's understanding of the knowledge, skills, and abilities needed to begin, transition, or advance a cyber career. Individuals from various backgrounds and age groups can use the tool to better understand the cyber workforce, in addition to the different types of cyber work roles and their relationship to one another.

A fact sheet is also available for the tool.
